

Mini Crawlers

Used Mini Crawler West Covina - We have designed numerous programs for Mobile Crane Operation at our Crane Training Schools. These programs are recommended for the experienced operator who needs re-certification or certification, and for inexperienced operator who is looking for a job in the industry. Crane operator positions are in demand because of their high pay. Operators of cranes are amongst the highest paid of whatever heavy equipment operator. Our Crane Operator training offers instruction for various mobile cranes. Course subject consists of Crane Set-up, Wire Rope, Lift Planning, Load Dynamics, Load Charts, Rigging, and Signaling. The program is most suitable for crane operators, riggers as well as their supervisors. The materials included in the course would comprise a manual and many informative handouts. The safety instruction manual that is illustrated consists of 100 to 250 pages, depending on the course, of vital and useful material. Course materials include load charts and load chart exercises for the crane with which the trainee is working. Over half of the course involves Hands-On Safety Training. Practical training is helpful for increasing and developing personnel skills levels. Only experienced journeyman crane instructors are chosen to teach the courses. Our instructors have many years of industry experience. For all the course we provide, we can include optional testing mechanisms to customize your training. A skills test is usually administered for programs which include H.O.S.T. Trainees will be graded and tested.
